

# SHOW-N-GO™

By Altec Products

## Powered License Plate Transport

**A push-button remote transports the license plate between stowed and displayed positions in seconds**

- Enhances vehicle aesthetics in the displayed or stowed position
- Stainless steel components and fasteners for long-life
- Patented robust design for trouble free operation
- Complete system includes universal mounting hardware
- Easily installed by the average auto enthusiast

## Manual License Plate Transport

**A simple one hand motion to retract and stow the license plate**

Caution: The license must be in the displayed position when required by law. © Altec Products, Patent Pending
