# CORVETTE TOP SLIDER

## 84 - 90

### INSTALLATION OF TOP SLIDER RAILS.

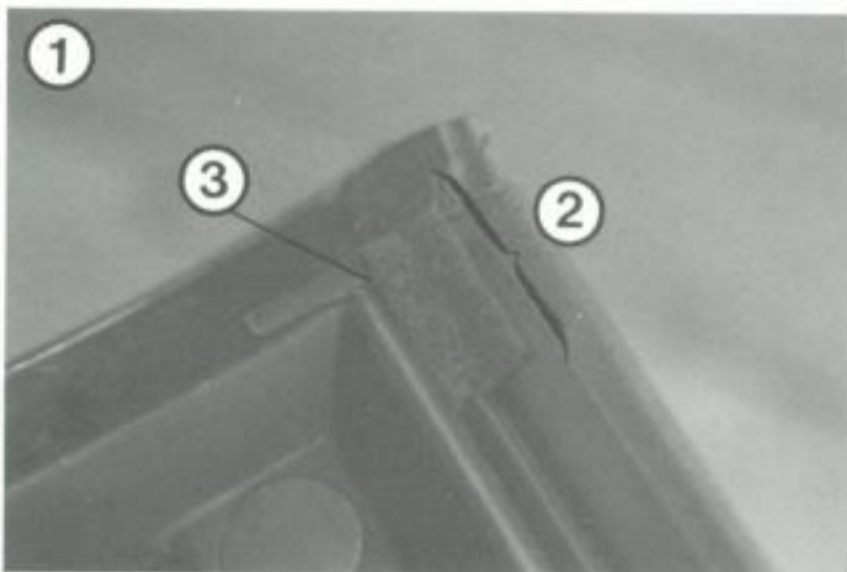

1. Remove Phillips head fasteners from rear of speaker grill.
2. Position the small end of top slider rail to lie flat on carpet and slide under Corvettes forward top hold down.
3. Align top sliders rear bracket so two (2) holes locate over the speaker grill holes.
4. Install Phillips head screws provided.

### INSTALLATION OF SLIDING PADS TO TOP.

#### **... IMPORTANT ...**

This velcro pad insures a smooth frictionless sliding action where the top contacts rails.

1. Turn top over on smooth, clean surface.
2. Clean metal and rubber area shown in photo with glass cleaner or 409 cleaner. (Area where velcro will be positioned.)
3. Install the velcro material so it covers the metal and rubber edge of the top as shown.
4. Using thumbs thoroughly press down on the velcro pad to insure good adhesive contact to the tops metal and rubber surfaces.

(Patent Applied For)
