

Installation for C-6 Corvette Grand Sport & Z06

manual configuration installation instructions

Display Position

Transitioning

Stowed Position

Overview The Show & Go license can be quickly and easily changed from a display to a stowed position with a simple hand motion. The assembly simply bolts to existing Grand Sport fastener locations and no drilling or body modifications are required.

Installation steps

1. Drive the front wheels up on ramps, or jack up one front side and use a safety jack stand.

2. Mount the "Z" bracket behind the spoiler lip, using the existing body screw.

3. Attach the long bracket to the base using the 2 screws and nuts provided. Screws point up as shown. Leave screws loose until after step 4.

4. Position the base so there is a 1/16" gap in front of the spoiler. Attach the base to the "Z" bracket with the 2 screws provided pointing up and with nuts on top.

5. Fasten the rear mount using the existing body screw. Then tighten the mounting tab screws that were installed in step 3 above. Check for smooth operation and readjust if necessary.

6. Install sticky back rubber pads on back of back of plate mount where it contacts the bumper.

Warranty Workmanship and materials are warranted for 30 days from the original date of sale. Damage resulting from ground strikes are not covered by warranty. Return a defective part to Altec Products, postage paid, to receive a replacement under this warranty policy.

The Show & Go is manufactured by Altec Products Inc and is protected by one or more US patent.
