

# ALTEC ZX DATSUN HOOD DUCTS

THE NASA STYLE HOOD DUCT RETURNS A PERFORMANCE LOOK TO THE ZX DATSUN.

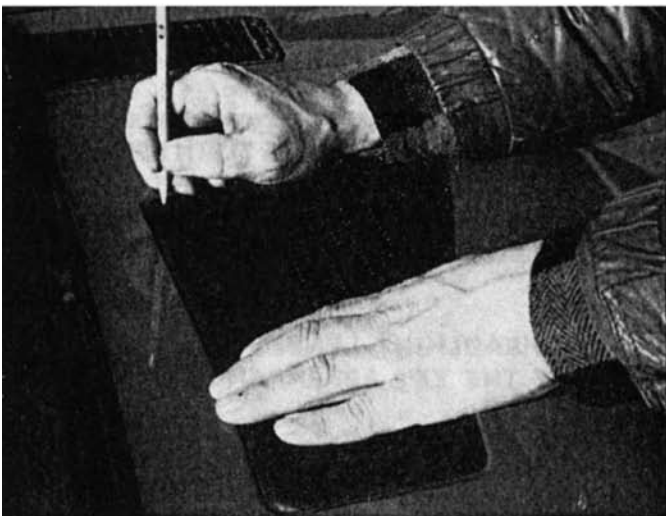

THOROUGH PRODUCT ENGINEERING ASSURES HIGH PERFORMANCE AND DURABILITY.

CAREFUL ATTENTION TO INSTALLATION DETAILS PROVIDES QUALITY RESULTS.

## MATERIALS PROVIDED:

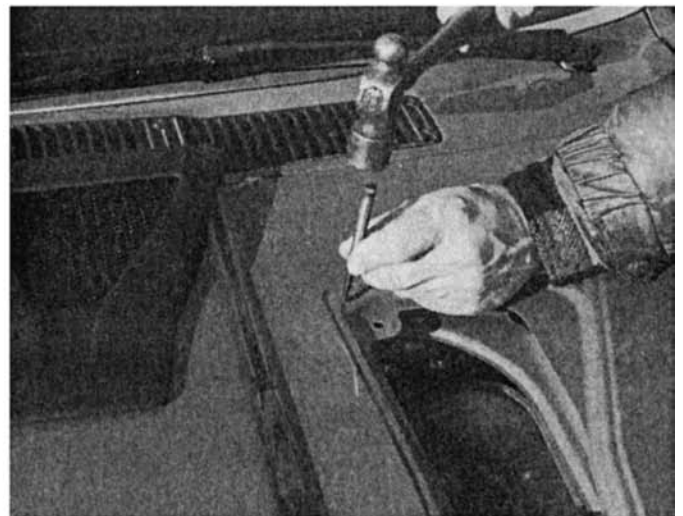

ONE RIGHT DUCT  
ONE LEFT DUCT (INCLUDES HEAT BARRIER)  
FOUR #4 X 1/2" MOUNTING SCREWS  
TWO #6 X 1" MOUNTING SREWS  
TWO WASHERS  
TWO #6 NYLON SELF-LOCKING NUTS  
ONE 3/32" DRILL BIT

## INSTALLATION INSTRUCTIONS

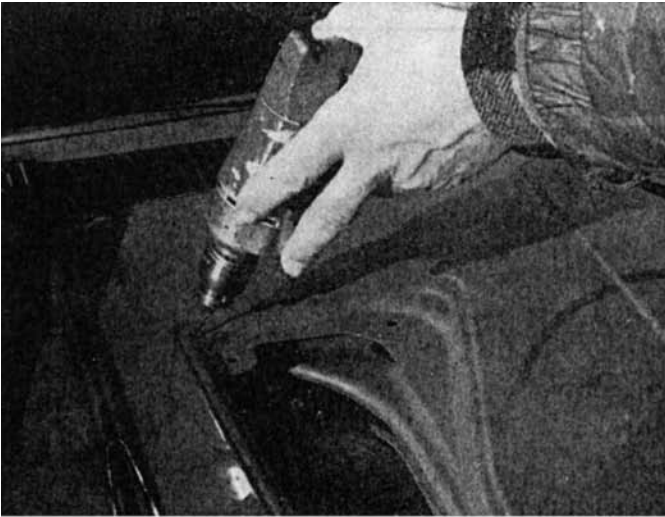

### STEP 1

Remove the standard grills in turn, center each hood duct in the hood recess and mark the location of each rear hole.

### STEP 2

Carefully center punch each rear hole location in preparation for drilling.

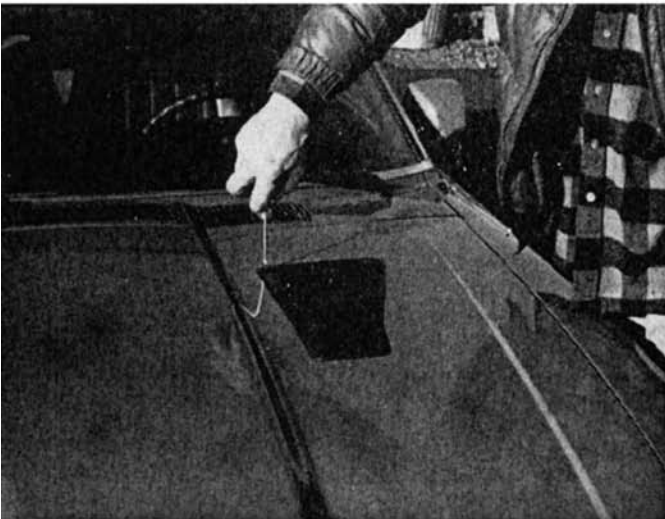

### STEP 3

Drill the rear 3/32" mounting holes while holding the drill perpendicular to the center punched hood surface.

### STEP 4

After each hole is drilled through, move the drill to a vertical position so the screws will drive straight.

### STEP 5

Mount the duct by installing the two rear screws. **TIGHTEN THE SCREWS 1/2 TURN AFTER CONTACTING THE DUCT. DO NOT OVER-TIGHTEN.**

### STEP 6

Install the front 1" mounting screw, washer and nylon nut. **TIGHTEN THE SCREW 1 TURN AFTER THE FRONT OF THE DUCT CONTACTS THE HOOD.**

**OTHER QUALITY ALTEC ACCESSORIES INCLUDE ZX HEADLIGHT LENSES WHICH INCREASE AERODYNAMIC EFFICIENCY AND ENHANCE THE ZX's APPEARANCE BY VISUALLY INTEGRATING THE FRONT BODY LINES.**
