

Instructions for Fullsize Dodge and Compact Pick-ups with Bracket System

The 60" Light Bar fits the full size Dodge Pick-up • The 49" Light Bar fits most compact Pick-ups

1. For best results follow General Installation Instructions.
2. The new bracket attachment system allows for removing the Light Bar to access your spare tire release.
3. Before installing simply check to make sure the top edge of each bracket is flush with the top edge of the Light Bar. Tighten phillips head screws to ensure that the brackets stay tight and level to the Light Bar.
4. Important: Read General Instructions (i.e. Step 1. Cleaning, Step 2. Marking Location, Step 3. Activating Tape).
5. To take off Light Bar remove phillips head screws. The brackets remain on truck.
